County Population data from Office of State Demographer - <http://demog.state.nc.us>

Oct-06

¹ Includes: Water Supply, NPDES-subject municipality boundaries, MSIs, Urbanized Areas, State Stormwater Program (Coastal Counties + ORW + HQW waters), Neuse & Tar-Pam, and all NSW sub-basins

² Counties "tipped in" are those where 75% or more of the county is covered by a stormwater program and any county with a 10 year growth rate greater than the average state growth rate over the same time period.
